UMBC prepared me for my future by:

“Instilling within me, skills to take on the real-world and also an intercultural perspective, which is imperative for the modern world we live in now.”

“Giving me many opportunities to grow through research, service, and student organizations. The professors in my department were very supportive, helping me to develop as a student and a researcher as early as Freshman year. “

“Creating learning opportunities that required project-based work and connecting me with insightful professors, mentors, and professionals.”

“Encouraging me to innovate, collaborate, and practice integrity and respect for diverse perspectives and cultures through its undergraduate as well as graduate school teachings, student organizations, work-study jobs, internships and service-learning opportunities.”
